

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Putting many stations into the controll of a few is not only dangerous to the public since the view of a few are being controlled to the masses but it is not in the publics intrest. It clearly contends the view of a few that controll the public airwave. It is not in the public intrest to enable such a situation to be able to take place on public airwave. The system needs to be reformed and large media outlets need to be under higher standards. The renewal should force the limit of control of public airwaves amoung large corporate orginizations. Thank you.
